SAGICOR DONATES FIRST FEVER SCAN MACHINE FOR EBO-LA DETECTION AT JAMAICA'S PORTS

SAGICOR Group Jamaica y donated \$4.3 million to purchase a fever scan machine for the Ministry of National Security to aid in the detection of the ebola virus. It was described as the first donation by corporate Jamaica to fight the threat of this deadly virus. The machine which uses infrared technology will quickly scan streams of passengers at the Sangster International Airport, the island's busiest port. Currently the ministry uses thermometers to check passengers for symptoms of the virus. Notwithstanding the fact that infected passengers may fail to show symptoms until two weeks after infection, the fever scanner adds another layer of border protection. Sagicor Group Jamaica President Richard Byles views the donation as benefiting Jamaica rather than as a safety measure aimed at guarding the group's tourism and life insurance interests.

FSC FLOATS NEW REGIME FOR UNCLAIMED PENSIONS

Under current law, unclaimed pension benefits revert to the pension fund, but they have to wait 150 years to take ownership.

Under the reform proposals currently under discussion, that will change. The period could be cut to a 30-year wait, if the recommendation put forward by regulator Financial Services Commission (FSC) gets no pushback,

and the funds will now flow to the high court instead.

The FSC has specifically proposed an amendment to Section 7(1) of the Pensions (Superannuation Funds and Retirement Schemes) Act 2004, which removes the words "and the monies or benefits shall not revert to such a fund or scheme, except after a period of 150 years". Instead, the monies or benefits payable would be retained for a period of 30 years, and handed over to the Supreme Court thereafter. "At no time shall unclaimed monies or benefits revert to the fund or the scheme," the regulator proposes.

In the case of unclaimed funds from schemes which have been wound up, those monies too will be paid to the courts.

"The trustees are required to advertise eight weeks after the monies or benefits became payable in the case of a fund or scheme being wound up. The trustees shall advertise semi-annually over a period of one year and then pay the unclaimed benefits into the Supreme Court," says the FSC proposal.
